

## CAREER OPPORTUNITIES AT VENMYN

Venmyn is an internationally focused, South African based, independent mining and minerals management advisor specializing in the technical and economic evaluation of mineral projects and the strategic analysis of mining and mineral resource companies.

Opportunities exist at Venmyn for self motivated and professional mineral experts (geologists or mining engineers) who wish to work with a dynamic advisory team.

Venmyn has the following vacancies:

### Minerals Industry Advisor / Technical Writer

Applicants require:

- B.Sc.(Min Eng) or B.Sc.(Geol) Hons or other appropriate degree
- Minimum 8 years post graduate minerals industry working experience
- Multi-commodity experience
- Exposure to projects outside of South Africa
- Competent Person as stipulated in the SAMREC Code
- Basic knowledge of compliance issues surrounding the minerals industry
- Introduction to financial valuation of mineral assets
- The ability to prepare top quality, high profile public reports on a wide range of commodities and stages of project development from exploration to mining
- 3D, geological modelling experience would be advantageous
- Research and analytical skills paramount
- Attention to detail imperative
- Team player
- Entrepreneurial spirit
