Annual Reports

Revolutionising Annual and Corporate Reporting. Gone are the days when Ore Reserve and Mineral Resource Statements formed the smallest component of an Annual Report. These sections contain crucial information for both investors and analysts. Interaction specialises in reporting focusing on cover to cover Annual Reports and technical content. We understand technical aspects behind Mineral Resource and Ore Reserve statements and thus offer a superior service to our clients.

Technical Statement Creation and Quarterly Reports

Introducing a Technical Statement approach which highlights the key features and relevant values is a far more effective way of reporting a company's results. These can be used as part of the Annual Report or as a summary give-away for fund raising ventures and road shows.

Compliance Checks

Have your Fact Sheet, Annual Report and Technical Statements proofed for compliancy within the minerals industry. With the aid of our 'Competent Persons' we can proof your reports for compliancy in accordance with the SAMREC, AIM, JORC and National Instrument codes.

Corporate Identity Creation

In an era of diversity and change whether through a merger, BEE partnership or simple corporate revamp, it is imperative that your re-branding promotes all aspects of your business. In the case of a merger this new identity should be symbolic of convergence or union and in most cases the focus is on marketing this new identity effectively - making certain that everything from your website to business cards reflects your new look 'n feel. Contact Interaction to find out how we can help to improve your impact in the market.

Technical Graphics Creation

With Interaction's backing and scope we can prepare accurate industry standard technical diagrams for all your public and in-house reporting requirements. Diagrams can be incorporated into your company's corporate reporting material to form the base of all future reports.

Road Show Fact Sheets and Brochure Creation

Going on a roadshow to promote a project? Let us assist you in creating powerful fact sheets and brochures.

Promotional Presentations

Have your technical content compiled into top class promotional PowerPoint presentations to use on fund raising ventures and road shows.
